European approach to Better Regulation  
Jean Monnet Module  
[betterregulation.lumsa.it](http://betterregulation.lumsa.it)

## A new course on regulation (with the support of the European Union)

### What is it?

A multidisciplinary course in English (6 CFU). Students will be involved in **interactive lessons**, case studies, workshops and laboratories on the following issues: **theory of regulation, tools for better regulation, cognitive sciences for effective regulation (behavioral impact of regulation)**.

### Who teaches the class?

Prof. **Nicoletta Rangone** Module Coordinator, Prof. **Matteo Rizzolli** and Prof. **Alberto Alemanno** (Jean Monnet Professor in European Union Law, Ecole des Hautes Etudes Commerciales-Parigi e New York University School of Law, Global Clinical Professor of Law). Laboratories are coordinated by experts of cognitive sciences.

### Why should I enroll?

Students will learn how to improve the quality and the impact of regulation, two issues that are essential in regulated firms and for regulators. The course will provide excellent contacts through a one-month internship (3 CFU) in an institution involved in better regulation (the European Commission, Consob, AGCOM, ANAC, AGCM and many more).

### Can I enroll?

The course is for LUMSA students, Graduate and Master Programs (Lauree Magistrali) and Law Degrees (ciclo unico), both from Rome and Palermo (the latter will attend lectures *via* an interactive platform for distance learning).

### How do I do it?

For information please contact:
